Science Faculty Breakout

Staff were involved in some practical chemistry during the staff break - out last week Friday run by the Science Faculty. Staff worked in Anau groups to make a rainbow of colors using just water, an acid and a base. Drops of Universal Indicator provided the colors. The purpose of the activity was to show staff the type of activity that Science students experience—working as a group and experimenting to discover answers. Each team performed well experimenting with combinations of each liquid to find the right colors.

HOLLYWOOD VISITS

Student's were star struck last week when actor Christopher Gorham who featured in television series Ugly Betty and Odyssey 5 visited Tereora College. He also starred in the film "The Other Side of Heaven" in which he played a Missionary. Gorham spoke to our Year 10 students about bullying on the back of a presentation given by our Year 12 student—Amber Fraser.
